

July 26 – 29, 2021, Online

# International Solar Fuels Conference 2021

Since 2015, the ISF conference series has been a highlight for the global solar fuels community. In 2021, the online conference will continue to offer an exciting and inclusive programme, with the main conference (July 28 – 29) preceded by the Young conference (July 26 – 27).

## Themes

**Multi-electron/multi-proton catalysis (homogeneous, heterogeneous, enzymatic and bioinspired processes)**

**Light-harvesting and light-driven processes**

**Photoelectrochemistry**

**Photobiological approaches**

**Metabolic engineering**

**Devices and demonstration: robustness, sustainability and upscale**

## Speakers include

**Harry Gray**  
Caltech, USA

**Pia Lindberg**  
Uppsala Universitet,  
Sweden

**Li-Zhu Wu**  
Chinese Academy  
of Sciences, China

**Ted Sargent**  
University of Toronto,  
Canada

**Kevin Sivula**  
EPFL, Switzerland

## Chairpersons

**Vincent Artero**  
CEA, France

**Leif Hammarström**  
Uppsala Universitet,  
Sweden

**Ann Magnuson**  
Uppsala Universitet,  
Sweden

**Eric Maréchal**  
CNRS, Grenoble  
France

**Register  
now**
