## THEMATIC SESSIONS

Ecophysiology of photosynthesis

Gene expression and plastids

Coordination of photosynthesis with nutrition

Carbon assimilation and metabolism

Photosynthetic genes and genomes and evolution of photosynthesis

Metal-dependent processes in photosynthesis

Regulation of photosynthetic electron transport and alternative pathways

Light acclimation, light harvesting and photoprotection

## KEYNOTE SPEAKER

Andrew Leakey (IU, USA)

## CONFIRMED SPEAKERS

Marianne Jaubert (IBPC, France)

Pablo Calzadilla (I2BC, France)

Cécile Bernard (MNHN, France)

Philipp Gotico (I2BC, France)

Tatjana Kleine (LMU, Germany)

Julia Legen (HU, Germany)

José L. Crespo (CSIC, Spain)

Hatem Rouached (MSU, USA)

Guillaume Tcherkez (IRHS, France)

Asa Strand (UMU, Sweden)

Guy Hanke (QMUL, UK)

Michael Schroda (RPTU, Germany)

Genji Kurisu (OU, Japan)

Peter Geigenberger (LMU, Germany)
