Position available Postgraduate Researcher

Position profile:

Degree in Biology, Biotechnology or Biochemistry. The possession of a Master's degree in related fields will be valued. Experience in Molecular Microbiology, protein purification or protein crystallization will be assessed. English proficiency needed.

Description of work:

The selected candidate will work at the Center for Excellence in Biotechnology and Plant Genomics (www.cbgp.upm.es) in Madrid, with stays at the Institut de Biologie Structurale (IBS) in Grenoble, France. He/she will be trained in Molecular Biology, anaerobic protein purification, crystallization and protein structure resolution. This work is part of the working group of [Biochemistry of Nitrogen Fixation](#).

Duration of contract: 1 year renewable up to three years.

Salary: €20,000 gross / year

Start date: October 15, 2017

Application deadline: September 20, 2017

Contact:

Interested candidates should send their CV and the contact information of at least one reference to Dr. Luis Manuel Rubio (lm.rubio@upm.es). The subject "**Nitrogenase structure**" should be included in the application.

For additional information on the research activity of the group please use this link :
