

25–27 March 2019, Cambridge, UK

Artificial Photosynthesis

Faraday Discussion

Themes

Biological approaches to artificial photosynthesis

Synthetic approaches to artificial photosynthesis

Demonstrator devices for artificial photosynthesis

Beyond artificial photosynthesis

Speakers

Matthias Beller
(Introductory Lecture)
Leibniz Institute for Catalysis

James Durrant
(Closing Remarks Lecture)
Imperial College London

Andy Cooper
University of Liverpool

Michael Graetzel
École Polytechnique Fédérale de
Lausanne

Burkhard König
Universität Regensburg

Akihiko Kudo
Tokyo University of Science

Shelley Minteer
The University of Utah

Joost Reek
University of Amsterdam

Wendy Shaw
Pacific Northwest National Laboratory

Peidong Yang
University of California, Berkeley

Scientific Committee

Erwin Reisner (Chair)
University of Cambridge

Ryu Abe
Kyoto University

Fraser Armstrong
University of Oxford

Andrew Bocarsly
Princeton University

Christine Caputo
University of New Hampshire

Sophia Haussener
École Polytechnique
Fédérale de Lausanne
