

The French Group of Bioelectrochemistry is pleased to invite you to its next event, which will take place from **January 13th to 17th, 2025, in Autrans** (l'Escandille). This well-established and renowned **Meeting** will be paired with a **Winter School** from January 13th to 15th. The school is designed for students, technicians, and researchers who wish to acquire essential foundational knowledge for conducting successful research in the field of bioelectrochemistry.

Situated in the village of Autrans-Méaudre in the Vercors at an altitude of 1,050 meters, the Escandille holiday village offers the perfect setting for scientific discussions and networking.

Free shuttles will be available between Grenoble SNCF station and the village of Autrans.

WINTER SCHOOL 2025
ELECTROCHEMISTRY FOR LIFE SCIENCES:
FROM BASICS TO ADVANCED BIOMOLECULE WIRING
January 13th-15th, 2025, Les Alpes, France

followed by

XVIIITH MEETING
GROUPE FRANÇAIS DE BIOÉLECTROCHIMIE
January 15th-17th, 2025, Les Alpes, France

INFORMATION AND PROGRAM
www.bioelectrochimie.fr
Registration fees including accommodation, lunches and dinners
Winter School + XVIIIth Meeting: PhD and Post Doc 550 €, Permanents 700€
Meeting: PhD and Post Doc 275 €, Permanents 400€

IMPORTANT DATES

Dead-line for **abstracts submission: 30th September 2024**. Click here for the abstract submission [form](#).

Dead-line for **registration: 30 October 2024**. Registration form is yet available ([English version](#) or [French version](#))

All the information you need are available on line <https://www.bioelectrochimie.fr/le-flyer-de-la-prochaine-winter-school-couplee-a-notre-traditionnel-colloque-est-disponible/>

We are looking from meeting you during this event in a winter atmosphere

Elisabeth Lojou, on behalf of GFB council
